BAKOBA[®]

- BUILD YOUR OWN WORLD -

2019

www.BAKOBA.com

BAKOBA® is a Danish-designed construction toy that stimulates creativity, imagination and motor skills. BAKOBA® enables children to explore, discover and innovate while playing.

BAKOBA® is made from a soft, flexible and very durable foam material. The blocks make no noise when played with, creating a comfortable playing environment. You can even wash it in the washing machine at 30°C (86°F), on a gentle wash cycle, ensuring a high level of hygiene.

Uniquely, BAKOBA® is combinable with lego bricks, via the "connector-piece" included in the boxes, creating infinite possibilities. Moreover, BAKOBA® floats on water and can therefore be used in the bathtub or brought outside, where kids can experiment and play with their constructions in water areas.

We recommend BAKOBA® to kids from 3 to 9 years old. The youngest can build simple constructions, perhaps together with teachers and parents, while the older kids can build more advanced and combine with lego bricks.

BAKOBA® inspires **creativity** and builds **self-confidence**

Imaginative and creative

Bring BAKOBA® to the **bathtub**

Compatible with lego bricks

Twist and turn

Safe and noiseless material

Inspires **teamwork**

BAKOBA® is **washable**
