GAM Gonzagarredi Montessori

Since 1925, GAM has designed, manufactured and marketed innovative and customized solutions for nurseries, pre-schools, schools, libraries and cultural centers. Our Italian design furnishings are safe and built with materials and finishes of utmost quality and compliance with the most stringent European technical standards (UNI-EN).

Collabration Heutink International

GAM and Heutink International work together to create learning spaces that are both practical and inspiring. GAM's Pink Label furniture is subtly inspired by the Maria Montessori educational philosophy, focusing on independence, structure, and a inspiring environment, while fitting seamlessly into any learning environment.

The Pink Label line from GAM is a carefully curated collection of furniture that is immediately available, reliable, and functional. All products are flat-packed for easy transport and assembly, providing schools and educational institutions with a ready-to-use, thoughtfully designed, and competitive solution for a comfortable and stimulating learning environment.

The GAM headquarters

The GAM headquarters represent the philosophy of the company, its bond to its region of origin and its cultural and social dimension. It is located in downtown Gonzaga, just a few steps from the city's main square, and offers its spaces to the community.

The library-ludotheque hosts conventions, reading sessions and workshops for families and school teams. The space is furnished using GAM furniture and objects, changed often to present new items.

The main office centre of GAM is modern, bright and cheerful. The large open space reflects the way we work: through exchange, relations, search for positive innovation.

MEMO - the Memory of Montessori space - is a cultural center. The exhibition of precious vintage materials illustrates the period in which Maria Montessori lived in Gonzaga. The conference hall hosts meetings and conventions regarding pedagogy.

Pink Label furniture

"The GAM Pink Label furniture blends playful design with durability, offering versatile, child-friendly pieces. Created for early years environments, each item supports learning, creativity, and safe, functional use while adding vibrant style to any space."

10 good reasons to choose GAM

- Pedagogically specialised environments
- Certified quality of materials and products
- Certified for safe use
- Eco-friendly production
- A wide range of product lines for all needs
- Attention to details
- Durability
- Low MOQ
- Ready-to-ship stock availability
- Competitive pricing
- Flat-packed for cost-efficient shipping

GAM

GONZAGARREDI
MONTESSORI

All products of the GAM Pink Label conform to the latest technical standards in force in the sector with non-toxic paints and dyes. All have been successfully tested in accredited laboratories for safety, resistance and toxicity.

Tables

GAM table range gives the complete tables a mixed color of natural wood and white which creates the modern look and fits with a variety of room set-ups, especially in early years and primary school learning environments. All these tables are made with care and in compliance with the international safety standards. Minimal assembly required.
