Learning is where we play

2026 Catalogue

Yoga Ball Buddy with BubblePlush™
Page 9

LearningResources.co.uk

Learning Resources has long been a supporter of quality Early Childhood Education and this year we are supporting very young learners with new products that intrigue and delight, like the **Rainbow Busy Board** with its textures and sounds, and the **Lock & Key Clubhouse** which promotes fine motor skills and hand/eye coordination. Of course, all young children love a birthday, so treat them to our **New Sprouts® Serve and Share Birthday Cake** and learn early number while they celebrate.

Fans of Numberblocks are always looking for the next (bigger) set, so this year we have created **Numberblocks™ Heros with Zeros** taking the Mathlink Cubes set up to 100! We've added to the vehicle range with **Mini Vehicles Six to Ten** and added some where to park them in the **Numberblocks Counting Car Garage**. Younger fans will be delighted with the **Sing and Record Music Player** as they listen and join in with their favourite **Numberblocks** songs.

Upcycling comes to Learning Resources this year in the shape of our **Boxineers™ Craft Kits** These clever creative sets make a virtue of the phenomenon that kids can get more fun from old boxes than some toys! Use the tools, connectors, stickers and accessories in the **Boxineer Kits** to create colourful crazy cardboard Animals and Vehicles. All the tools are 'kid friendly' and the accessories are re-useable too.

Parents and teachers will welcome the assistance offered by our **Conflict Resolution Cubes** which help children identify conflict, work through solutions, encourage reflection and reconciliation.

We continue our commitment to promoting social and emotional learning and mindfulness with our **BubblePlush™ Yoga Ball Buddies**. These two friendly characters will help guide children through playful yoga poses helping them balance their emotions and energy. Talking of balance check out our new **Sight Word Tower Topple™** game; try to read and create three letter sight words without causing the tower to topple over!

Continuing our established support for young scientists we have six new and improved **GeoSafari®** items including a new **Orbiting Solar System & Projector**, a **Telescope**, **Microscope**, specialist **Bug Hunters** and **Catchers** and a **Bugservatory**.

These are just some of the more than 50 new products you'll discover in this 2026 catalogue, proving once again that **Learning is Where We Play**.

Look out for our **award winners** throughout the catalogue

**NEW****Phonics Word-Building Magnetic Tiles**

With enough sets for 6 students, this classroom teaching resource is ready to support young readers. The high quality foam tiles are colour-coded to make it easy for students to identify word parts such as consonants, vowels, digraphs, variant vowels and more when learning to read in English. The colour-coded tiles also help to improve visual organisation and segmentation of text for children who need extra support when learning to read. Most tiles measure 2cm x 2cm with a durable magnetic foam design to withstand classroom use. They are ready for use on magnetic surfaces such as whiteboards. Includes 6 sets of 97 tiles (includes consonants, vowels, digraphs, variant vowels, dots, and hearts) and 6 reusable vinyl pouches for easy storage. **6 Sets of 97 tiles**

⚠ SMALL PARTS. Not for < 3 yrs

 LER 1849

ages 5+

**NEW****Dry Wipe Clock Faces**

Developed to help children learn to tell the time on analogue and digital clocks, the Dry Wipe Clock Faces are ready for classroom use. Students use dry-erase markers (not included) to practise drawing in the hands, writing in the numbers and the time in both analogue and digital format. This helps them understand how time is displayed on different clocks and can also be used to help students grasp the concept of elapsed time, and other time-related concepts. The pack includes 10 dry wipe, double-sided clock face cards. They are suitable for classroom use and are easy for teachers to integrate into lesson plans. **10 Piece Set**

LSP 0571-UK

ages 6+

NEW**Big Time™ 24 Hour Geared Mini Clocks**

Ready for classroom use, the set of 6 Big Time 24 Hour Mini Clocks helps children learn to tell the time on 12 and 24-hour analogue clocks. Number markings are colour coordinated with their matching hands (red for hour and blue for minute) which makes it easier for children to identify each. In addition, the hands are geared to keep the correct relationship between hour and minute. The clocks measure 10cm x 10cm and have a removeable stand so students can lay them flat or stand them upright during lessons. Clocks are made from durable plastic and are easy to wipe clean and to store in a classroom. **6 Piece Set**

ages 5+

Features poppable numbers and a sliding number line

NEW**NumberLine Clock™ Sensory Bubble Popper**

Students slide, spin and pop their way to learning about time with this innovative clock. The hour and minute number line popper at the clock's base are colour coded to match the hour and minute numbers shown on the circular analogue clock face. Children slide the dials along the hour and minute popper and then turn the dials on the clock face to match. This helps them see that a clock face is just a circular number line! Clock measures 23cm L x 23cm W.

Puzzle Cards

Build preschool readiness, one piece at a time. These self-correcting puzzles help young children develop early numeracy and literacy skills through play. Each puzzle features brightly coloured illustrations and numbers, letters, or simple words. Designed with little ones in mind, each puzzle fits together in a unique way, so there's only one correct answer per puzzle. This allows children to experiment and self-correct as they figure out the answers. Every Puzzle Cards set comes in a sturdy, reusable box for easy tidy-up and storage after playtime is finished. Puzzle sizes range from 10cm W x 10cm H, to 18cm W x 8cm H.

Hide & Seek Learning Treehouse™

Children can search for their furry forest friends with the Hide & Seek Learning Treehouse. Shaped like a big tree, this engaging educational activity set helps children build fine motor skills, number, colour, and shape recognition, and matching and sorting skills. Play games of hide and seek with the five friendly animals hidden behind each numbered door, challenge children to match the included apples with the door that matches their corresponding colour, number, or shape, or simply slide the apples down the secret chute for surprise play. Treehouse measures 30cm W x 26cm H x 10cm D. **7 Piece Set**

LER 7741

ages 2+

Sort & Seek™ Polar Animals

Young children learn counting, colours, matching, sorting, fine motor skills, and more with the friendly Artic animals found inside the two-piece igloos. Playing with the igloos also helps young children build coordination and other fine motor skills as they pop them open or shut. The adorable animals (polar bear, penguin, walrus, narwhal and Arctic fox) also double as finger puppets for imaginative play. Igloo measures 6cm H. **15 Piece Set**

LER 6811

ages 18 months+

Serving Shapes Tea Set

With cups and saucers from one to five, counting skills come alive with Serving Shapes Tea Set. This colourful tea set helps children learn fundamental skills including number and shape recognition, sorting, and sequencing skills. Children can also practise matching skills by pairing the shaped pegs on each saucer with the corresponding holes on each cup. All cups and saucers fit in the teapot for simple storage. 11-piece set includes: teapot, five teacups and five saucers. Tea pot measures 13cm H x 20cm W. **11 Piece Set**

LER 7740

ages 2+

Count & Color Choo Choo™

Send number, colour and shape recognition skills chugging down the tracks with the Count & Color Choo Choo. Driven by a friendly conductor figure, each of the five numbered train trucks holds a cargo of a matching quantity of blocks. Children can sort the blocks by shape and colour, count up the total number found in the train, or build fine motor skills while building towers and loading them back into their correct train trucks. Train set includes train driver, train engine, 4 trucks and 14 blocks. Train measures approx. 40cm L when complete. **21 Piece Set**

LER 7742

ages 2+

Peek-a-Bird Learning Buddies

Little ones learn counting, colours, matching, sorting, social-emotional learning skills, and more through fun activities with the friendly birds found within each two-piece birdhouse. Each of the bird finger puppets has a different facial expression, which helps young children learn how facial expressions show what someone is feeling. Includes 5 numbered 2-piece bird houses, and 5 bird finger puppets. Birdhouse measures 5.5cm H. **15 Piece Set**

LER 6812

ages 18 months+

Peekaboo Fishbowl Friends

Little ones build matching, counting, colour, and imaginative skills with the set's 5 friendly sea creatures (shark, seahorse, octopus, crab and goldfish). There are 5 translucent fishbowls, of which 3 have perforated bases, and 2 have solid bases. This makes them perfect for stacking and water play. Features multilingual packaging and guide. The fishbowls measure approx. 8cm H x 7cm W. **10 Piece Set**

LER 6814

ages 18 months+

Peekaboo Learning Jungle

Explore hide-and-peek play with 5 friendly, colourful jungle animals in 5 stackable treehouses ready for counting, colour, and fine motor fun, as well as lots of imaginative play. There is a monkey, lion, elephant, tiger and zebra. Features multilingual packaging and guide. Tree bases measure approx. 8cm H x 7cm W.

10 Piece Set

LER 6815

ages 18 months+

Peekaboo Learning Farm

Learn counting and colours with farmyard friends. Pop open this set's colourful numbered barns to find the adorable animal finger puppet inside. Kids learn new skills including sorting while building their imaginations as they play peekaboo, pretend and more. Set contains 5 barns and 5 finger puppets. Each two-piece barn measures 7cm L x 6cm W. **15 Piece Set**

LER 6805

ages 18 months+

Peekaboo Learning Barnyard Playset

Are you ready for a skill-building farmyard adventure? This adorable playset helps little ones build early years skills through fun farm-themed play. There's so much to keep little hands busy and learning – push the yellow lever, pull and spin the barn doors to find the friendly farm animals, rotate the silo, and more! This fun farm toy is also ready for lots of imaginative play and when the learning fun is over, the playset folds up for easy storage. **12 Piece Set**

LER 7745

ages 18 months+

Peeksville™ Hide & Cheep Chicken Coop™

Hatch new skills through peekaboo play with this fun farmyard themed set. Drop the eggs into the coop, and then lift, pull and rotate the doors to reveal them. Crack open the eggshells to reveal the chick friends hiding inside and use them for a fun memory game. The friendly chicks are also ideal for imaginative play and storytelling. Includes chicken coop, 3 chicken friends and 3 x 2-piece eggs. The storybook Activity Guide and packaging are multilingual. Chicken coop measures

24 cm W x 11cm H. **8 Piece Set**

LER 7747

ages 18 months+

Peeksville™ Haul & Seek Tractor™

This crew of farmyard friends is ready for a game of hide and seek. Each adorable animal fits under the hay bales for a fun memory game. They're also ready for pretend play as you pop them on the back of the trailer and pull them along for a ride. The tractor has fun features to keep little hands busy and learning through fidget play – pop the exhaust pipe, lift the grille, turn the wheels and more. Includes tractor with removeable trailer, 4 imaginative play figures, and 3 haybales. The storybook Activity Guide and packaging are multilingual. Tractor measures 16.5 L x 7.5cm H. **10 Piece Set**

LER 7746

ages 18 months+

Hide & Seek Vegetable Garden

Little hands pull up counting, colour and memory skills each time they play with this adorable early years set. There's a surprise hiding inside each of the 5 numbered flowerpots. Will it be a colourful carrot, a bright beetroot, or the funny bunny? Pull up the leafy top to find out! Pieces are made from recycled materials and are easy to wipe clean after playtime is over. The Activity Guide and packaging are multilingual. Flower pots stand 7cm H. **10 Piece Set**

Spike & Friends Counting & Colors Book Set

Toddlers build their beginning colour and counting skills with the help of Spike and his fine motor friends! Includes a mini version of our best selling original Spike the Fine Motor Hedgehog® with 4 other mini friends, and all-new board book filled with interactive seek-and-find story scenes! (English only.)

6 Piece Set
LER 9124

ages 18 months+

Spike the Fine Motor Hedgehog® Tissue Pal™

Children pinch, pull, and stuff their way to fine motor and sensory skills with Spike's 10 fabric tissues in 5 vibrant colours. The machine-washable tissues store inside Spike's shell. Features multilingual packaging and guide. Spike measures 14cm L x 12cm W. **11 Piece Set**
LER 9137

ages 18 months+

Tracy the Fidget Triceratops

This little dino comes with big fidget fun! Tracy offers little hands 10 ways to fidget - spin the wheel, twist and click the feet, move the lever, and more. As they play little ones boost their coordination, hand strength, and other fine motor skills. Tracy is easy to play with on the go and wipes clean with a damp cloth after play. Features multilingual packaging. Measures 18cm L X 10cm H.

LER 9147

ages 18 months+

Steggy the Fine Motor Dino

There's a spiky situation that needs hands-on help. Steggy the Fine Motor Dino helps little learners develop fine motor skills. Inserting the brightly coloured numbered scales into Steggy's back helps build hand strength, refine the pincer grasp, and improves hand-eye coordination. Plus young children also learn about colours and numbers. Scales store inside when not in use for quick and easy tidy-up. Steggy measures 15cm H x 22cm W. **11 Piece Set**

LER 9091

ages 18 months+

Max the Fine Motor Moose

When young children place the colourful textured rings on Max's antlers, they get to practise key fine motor capabilities including wrist rotation, pincer grasp and hand-eye co-ordination. Indents on the rings naturally guide little hands to practise the all-important grip action they need to eventually hold a pencil. The brightly coloured rings also introduce early counting and sorting skills. Each ring is textured to introduce tactile awareness through play. **13 Piece Set**

LER 9092

ages 2+

Huey the Fine Motor Hippo

Huey the friendly hippo helps toddlers build four skills through play – fine motor skills, early number learning, colour identification, and shape recognition. When young children pop the colourful twistable birds into Huey's back, they practise hand-eye coordination, and build hand strength. Includes 5 twistable birds perfectly sized for little hands. Birds store inside Huey's back. Huey measures 10cm H x 22cm L x 16.5cm W. **7 Piece Set**

LER 9108

ages 18 months+

Tony the Peg Stacker Dump Truck™

Build all-new fine motor skills with this hard-working dump truck! As children stack and sort the 9 colourful barrels onto Tony's truck bed, they strengthen their hand muscles, coordination, and other fine motor essentials. Barrels come with 3 different shape bases (circles, triangles, and squares) for extra shape-sorting fun. Barrels fit inside truck for easy cleanup! **10 Piece Set**

LER 9133

ages 18 months+

Poppy the Count & Stack Flower Pot™

Grow all-new fine motor skills with the help of this friendly flower pot! As children explore Poppy's 6 stackable two-piece flowers, they build necessary hand-eye coordination. Each flower comes in a different colour and 5 are numbered 1-5 and the sixth one has a bumble bee. All pieces store inside the pot for easy clean up. **15 Piece Set**

LER 9134

ages 18 months+

Pia the Fill & Spill Piñata™

As children insert the rainbow-coloured play sweets into the back of this colourful, tactile piñata toy, they build fine motor skills such as the pincer grasp through fun play. Drop in the sweets, open Pia's tummy to spill them out, and start again! Each of the included 10 colourful pretend sweets is also numbered, and has a fun texture, which helps little ones build early years skills through sensory play. Pia stands 20cm H. **11 Piece Set**

LER 9135

ages 18 months+

Carlos the Pop & Count Cactus™

Children build essential fine motor skills each time they grab, push, pull, and twist the colourful, tactile spikes and flowers included with Carlos the Pop & Count Cactus™. The spikes are also numbered 1-10 and have a fun texture for sensory play. Use these to build early number skills such as counting and place value. Flowers and spikes store inside after playtime.

16 Piece Set

LER 9125

ages 18 months+

Hoot the Fine Motor Owl™

Hoot the Fine Motor Owl helps little hands build strength, coordination, grip and scissor skills through five fun activities. Children drop coins down the chute, rotate Hoot's eyes, poke his squeaky nose or flap his wings with the sliding front buttons. Set includes Hoot the Fine Motor Owl, 5 numbered coins in colours yellow, blue, green, red and purple. Owl measures 16.5cm H x 18cm W.

6 Piece Set

LER 9045

ages 18 months+

Dottie the Fine Motor Cow

Dottie and her colourful dots are ready for toddler and preschool fine motor fun! When young children play with Dottie's pull-out, push-in dots, they build essential preschool fine motor skills including hand strength, the pincer grasp, and hand-eye co-ordination. This fidget popper cow toy for toddlers has 5 colourful, tactile dots, and will keep little hands busy and learning. Includes multilingual Activity Guide. Measures 13cm H x 24cm L.

LER 9109

ages 18 months+

Steve the Scoop & Splash Shark™

Meet Steve, the scoopin', splashin' baby shark who's ready for water play learning fun! Ideal for water play in the bath, pool or water table, Steve has a child-sized handle and wide-open mouth that allows children to scoop, pour, and splash. Steve comes with 3 floating starfish and 3 squirting snap-together, pop-apart fish that help children build new colour and number skills while they splash. When the water play fun is done for the day, pieces store inside Steve until next time. Features multilingual packaging. Measures 18cm L x 11cm H.

7 Piece Set

LER 9146

ages 18 months+

Fine Motor Peacock Pals

Pedro the Fine Motor Peacock has invited his fine feathered pals over to help little learners get to grips with fine motor skills, and more. Ideal for a nursery or playgroup setting, these versatile toys help toddlers practise fine motor skills, improve hand-eye co-ordination, and learn colours, textures and basic numbers. Set comprises five peacocks each with five differently shaped push-pull feathers, designed with little hands in mind. Match the feather colour to the peacock or mix and match and see what a brightly coloured pride of peacocks Pedro and his pals are.

30 Piece Set

LER 9095

ages 18 months+

Helping Hands Tactile Tools

These colourful tools are ready for lots of hands-on sensory play and are ideal for use with compounds such as modelling dough and our popular Playfoam® Sand (sold separately). Each tool strengthens a different fine motor motion as children roll, press, push, cut and more. Made from durable materials, they are easy to wipe clean after playtime is over, which makes them ideal for use in a classroom, playgroup or at home. Packaging is multilingual. Star mould measures 12.7 L x 5cm W. **4 Piece Set**

LER 5586

ages 3+

Helping Hands Fine Motor Tool Set™

Help children develop their fine motor skills with these award-winning tools. Set includes one each of Gator Grabber, Handy Scooper™, Twisty Dropper™ and Squeezy Tweezer™ (also available separately). Largest tools measure 15cm L.

4 Piece Set

LER 5558

ages 3+

Helping Hands Sensory Scoops

Sized just right for little hands, each of the 4 fun fine motor tools offers a unique way to scoop – children can rotate and sift, funnel and stamp, twist and pour, or practise a whole-hand scooping motion. Made from colourful wipe-clean plastic, these scoops are ready for fun in sensory bins at home or in the classroom, but the fun doesn't end there - take them to the sandbox, water table, or other play spaces to add a touch of fine motor sensory fun to any playtime!

4 Piece Set

LER 5567

ages 3+

Sand & Water Fine Motor Tool Set

Perfect for sand and water play indoors or out! Includes 4 new tools perfect for sand and water play: squeeze bottle, water spinner, new twisty dropper, and a scissor scooper. Focuses on strengthening the hands, arms and core muscles. Easy-to-clean plastic construction make these great for water and texture tables, the bath and the beach. Largest tools measure 15cm. **4 Piece Set**

LER 5559

ages 3+

Helping Hands™ Fine Motor Tools Classroom Set

Perfect for schools, our best-selling fine motor tools are available in a classroom set. This set of 24 has 6 each of the following in 6 colours: Jumbo Tweezers™; Handy Scoopers™; Twisty Droppers™; and Squeeze Tweezers™. All the fine motor tools store inside the reusable storage bucket with convenient carry handle. Largest tool measures 15cm long. **24 Piece Set**

LER 5551

ages 3+

Twisty Droppers™

Develop hand strength and fine motor skills with these curly liquid droppers. Perfect for use at the water table or in scientific exploration, they feature soft, durable bulbs for easy suction and translucent tubes. Droppers measure 15cm L.

Set of 4

LER 3963

ages 2+

Handy Scoopers™

Practise the motions needed for scissor use while developing hand strength and fine motor skills with these unique scoopers. Easy-grip handles promote firm control. Holes in translucent scoops allow for catch and release fun at a water table. Scoopers measure 15cm L. **Set of 4**

LER 4963

ages 3+

Easy-Grip Tweezers

Young learners can get a grip on fine motor skills with these colourful chunky tweezers. Grooves guide the fingers into the pencil grip position to get little hands used to the feeling of holding a pencil to write, while also building muscle strength where it's needed in little hands. Teachers can use these for a variety of activities including sorting and sensory bin fun. Tweezers store inside the storage tub with carrier handle. Packaging is multilingual. Tweezers measure 9cm L. **12 Pieces**

LER 2965

ages 2+

Jumbo Tweezers™

Help young hands get a grip! Develop important fine motor control to build handwriting skills. Sturdy 15cm tweezers come in six colours and store in a resealable bucket. **Set of 12**

LER 1963

ages 5+

Tri-Grip Tongs

Ideal for helping young children practise essential fine motor skills and prepare to hold a pencil. Intuitive finger placements make it easier for young children to get used to the position and feeling of holding a pencil and get ready to write. Includes 6 tongs in bright colours. Tongs measure 12cm H x 4cm in diameter. **6 Piece Set**

LER 2964

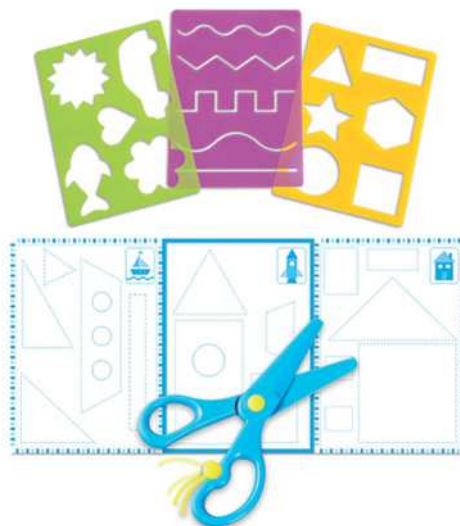

ages 4+

Squeezy Tweezers™

Specially designed to strengthen muscles in little hands and fingers, this tool's basic function is similar to that of a clothes peg - squeeze the body and the tweezer opens up! 12cm L tweezers come in six colours. **Set of 6**

LER 5963

ages 3+

Trace Ace Scissor Skills Set™

Build fine motor skills one snip at a time! This activity set's tracing and cutting activities help children build the hand strength and coordination needed for preschool success. Includes 3 stencils, 1 pair of scissors with adjustable difficulty level and pages for colouring and cutting.

Sensory Number Trays

Use this colourful set of interlinking numbered trays to help young children build essential skills in number recognition, counting from 1 to 10, subitising, and more through multisensory activities. On one side of each tray, little fingers will find a textured path that helps them trace the numbers and learn how to form them. On the other side of each tray, the number is represented two ways, and there is also a space that can be used to hold resources such as counters. The Getting Started Guide and packaging are multilingual. The interlinked trays measure a total of 76cm L x 10cm W. **10 Piece Set**

Lowercase Alphabet BubbleBrix™

The Lowercase Alphabet BubbleBrix is hands-on way to build letter recognition, phonemic awareness, word-building and spelling skills when children are learning to read in English. Pop each letter bubble, say the letter sound, and snap blocks together to build simple words. Use the lid to build common consonant-vowel-consonant (CVC) words, and then slide the blending bar to sound out the word during phonics practise. The BubbleBrix are colour-coded to be easy for children to recognise with consonants in blue and vowels in red. Includes 42 BubbleBrix, 10 double-sided CVC word cards and storage bucket with lid and handle, that doubles as a CVC and blending activity board. The Activity Guide and packaging are multilingual. The bucket measures 11.5cm W x 12.5cm H. **53 Piece Set**

tacklingtables™

Teacher-developed and classroom-tested, tacklingtables™ is the game-based way to help students meet the National Curriculum outcome of knowing their times tables and corresponding division facts off by heart the end of Year 4. The colour-coded chart shows which times tables they need to learn each year. Colour-coded playing cards feature the corresponding times tables and give kids a fun way to practise their tables and instant recall in small or larger groups. Practising through playing a game is an ideal way to help children learn and grow in confidence. The Classroom Set offers teachers a reliable baseline assessment method to evaluate each child's capabilities and measure their progress.

Removable
number
lines

24-Hour NumberLine Clock™

A clock is just a circular number line. Once children realise this, learning to tell the time becomes much easier. The 24-Hour NumberLine Clock helps children learn time by physically transforming a number line on to a clock face helping them graduate from counting to time telling. This hands-on teaching clock comprises a removable clock face numbered 1-12, a clock face with both 12- and 24-hour numerals, a minute face numbered 0-60, and two removable hands. By unfurling the clock faces into lines, children can visualise how to read time and understand concepts including telling time to the minute and intervals of time. This innovative learning clock comes with a Getting Started activity guide and four activities. Measures 12cm H x 11cm W.
 ⚠ SMALL PARTS. Not for <3 yrs.

92290

ages 5+

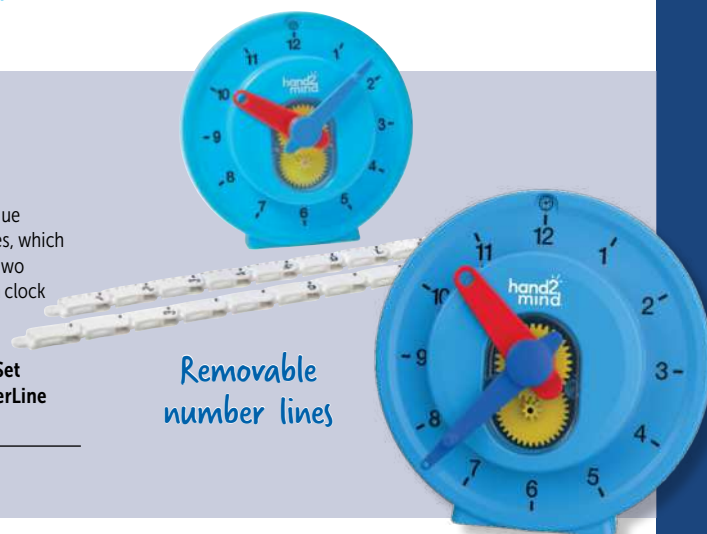

Advanced NumberLine Clock™

An enhanced version of our award-winning 24-Hour NumberLine Clock™, the new Advanced NumberLine Clock teaches children lapsed time and how time is displayed on different analogue clock faces. The hands are geared and keep the correct relationship between hour and minutes, which students can use to calculate intervals of time and solve lapsed time problems. The clock has two removable number lines and three different face styles so children can practise telling time on clock styles they will see in the real world.

⚠ SMALL PARTS. Not for <3 yrs.

Tock the Learning Clock®

Tock the Learning Clock is here to help your child learn how to tell time! Simply turn the clock hands and tock will announce the time, teaching how to read both analogue and digital clocks. Master early time skills with two learning modes: turn the play clock's hands to answer Question Mode's quizzes, or set the clock for a dance party in Music Mode. Includes working digital clock, play analogue clock with moveable hands, "OK to Wake" light and activity guide. Tock measures 23 cm H. Requires 3 AA batteries not included.

LER 2385

ages 3+

Time to Learn Telling Time Activity Set

Children learn to tell the time with this hands-on activity set that is themed around their daily routine. The activity book includes relatable daily events such as snack time and bedtime which helps young children grasp the abstract concepts of telling the time as well as time passing. The set also includes a colourful aeroplane which has both an analogue clock face and a digital clock. Set the dials on the analogue clock and then pull down the plane's tail fin to see how the same time displays on a digital clock. Includes plane clock, 48-page write-and-wipe activity booklet and dry-erase marker. The packaging is multilingual, and the book is English only. The clock measures 19cm L x 20cm W. **3 Piece Set**

5-in-1 Outdoor Measure-Mate™

Perfect for non-standard measuring or the introduction of standard units, the primary aim of the Measure-Mate is for young learners to have fun exploring and measuring the natural landscape. Its robust build means that it will cope with vigorous use in rough terrain and its bright colouring is visually appealing and also ensures the components will all be returned to its handy mesh bag after use! The fun is further enhanced by the 'bird footprints' that the trundle wheel leaves behind and deciding where to place the whimsical stickers that will customise the Measure-Mate. The Measure-Mate can be reconfigured to create five separate measuring modes and includes 2 Calliper jaws, trundle wheel with bird 'footprint' tread, handle/base, measuring stick showing centimetres and inches, sheet of colourful stickers, mesh storage bag and an activity guide.

Measures 97cm L. 32.5cm wheel diameter. **7 Piece Set**

ages 6+

Hundred Board Sensory Bubble Popper

Explore numbers, arrays, and other basic maths skills using this interactive Hundred Board Sensory Bubble Popper. Leverage the front side as a hundreds board to learn about numbers 1 to 100. Flip it over to practise addition, multiplication, and geometry on the colourful 10x10 grid. Hundred boards are powerful manipulatives for students to visualise the base ten instruction of our number system because each number is one more/less than the number to its right/left and ten more/less than any number above/below it. Helps children learn counting, number patterns, operations, and multiples. With printed numbers on each pop, make maths concepts fun and hands on for students. Doubles as both a maths tool and an anxiety fidget toy. The high quality, long-lasting design is easy to clean and portable. Features multilingual packaging. ⚠️ SMALL PARTS. Not for < 3 yrs.

95789

ages 3+

Rainbow Fraction® Sensory Bubble Popper

Compare, find and pop equivalent fractions with this colourful multisensory maths manipulative. This durable popper is ideal for use in the classroom and at home to reinforce this area of maths learning through tactile play. It is colour co-ordinated to match the rest of our Rainbow Fractions teaching system, where whole is red, half is pink, thirds are orange and so on. This helps children easily identify fractions and see how different fractions can represent equivalent values. Packaging is multilingual. Popper measures 19cm L x 14cm W. **1 Piece**

Reinforce number sense, counting, addition and subtraction whilst getting children thinking on their feet! Features left-to-right representation and includes numbers 0 to 30. Numerals are colour-coded (blue evens, red odds and black zero.) Includes activity guide. Durable vinyl mat measures 6.7m L x 30cm W.

LER 0935

ages 5+

What is a Rekenrek?

A Rekenrek is a maths counting frame. Rekenreks can help children in EYFS build good number sense through the maths mastery approach that uses hands-on activities to help children make meaningful connections to early years maths concepts.

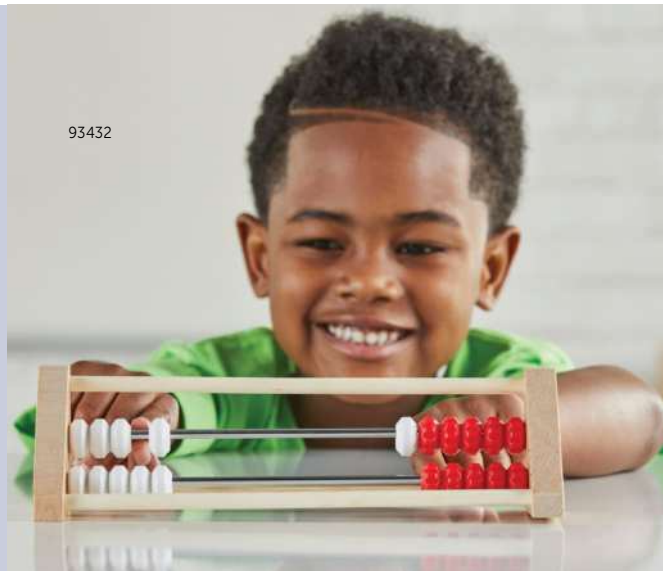

How does a Rekenrek work?

A Rekenrek combines three widely-used maths teaching models to help young children develop mathematical reasoning. These are counters, number lines, and base 10 teaching resources. Each row of beads is strategically split into five red and five white beads. This repeating pattern helps children learn to see numbers as groups of five or 10.

How do I use a Rekenrek?

Begin by aligning all beads on the right hand side of the frame. Children slide the beads across when practising maths concepts such as counting and addition. Encourage children to move the beads in groups to build subitising skills.

93432

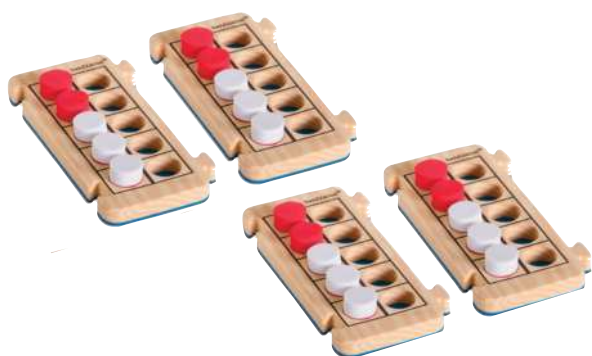

20-Bead Sensory Rekenrek

Grooves in the red beads add a sensory component to learning numbers up to 20 and make this rekenrek accessible for visually impaired pupils. Includes 1 20-Bead Sensory Rekenrek and Activity Guide. Measures 24cm W.

93432

ages 3+

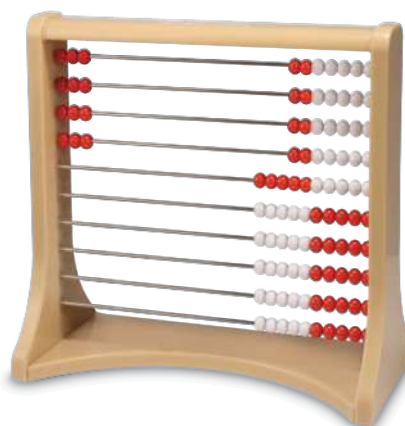

Rekenrod® Foam Ten-Frames

Two-sided foam counters help students develop number concepts and learn basic number facts to 10 and beyond. The frames help students connect the visualisation of the Rekenrod tool to the anchor numbers of 5 and 10 within the ten frames structure. Frames connect to each other. **Set of 4**

85225

ages 5+

10-Row Rekenrek Counting Frame

Teach children how to visualise their numbers! This calculating tool provides young learners with the visual model they need to discover number relationships and develop a variety of addition and subtraction strategies. Red and white coloured beads allow children to make mental images of numbers for counting, composing and decomposing numbers, adding and subtracting, and visualising through 100 using groups of five and ten as anchors. Measures 23cm L x 10cm W x 22cm H.

LER 4359

ages 5+

20-Bead Mini Rekenrek Class Set

These mini Rekenreks are an ideal size for pupils to use at their desks for early years maths activities. Each sturdy wooden frame has 2 rows of 10 beads and can be used upright or flat as children count, subitise, compose and decompose numbers, and add and subtract up to 20. Includes 25 mini Rekenreks and a multilingual Activity Guide and packaging. **26 Piece Set**

93429

ages 3+

93440

20-Bead Magnetic Demonstration Rekenrek

This display-sized Rekenrek for teachers has heavy-duty magnets and can be secured to most magnetic surfaces in the classroom. It can also sit on a table or hang on a wall using the attached metal eyelets and included S-hooks. Teachers can use the detachable write-and-wipe panel to write number sentences or hide beads that aren't being used. Includes 1 Rekenrek, 2 S-hooks, and 1 write-and-wipe panel. Features multilingual Activity Guide and packaging. **4 Piece Set**

The sequence and selection of colours of Cuisenaire® Rods is a registered trademark of hand2mind, Inc.

Cuisenaire® Rods

Help students transition from concrete to abstract representation of maths concepts.

These great value sets include enough colourful rods for small group or whole class use! Rods come in ten different sizes and colours and each colour represents a different rod length that can be assigned a different numeric value or unit of measure. Each set includes rods, convenient storage trays or tubs with lids and a teachers' guide. Longest rod measures 10cm.

Cuisenaire® Rod Workspace Trays

These durable trays work with our Cuisenaire® Rods (sold separately) to help students practise a range of primary school maths skills using one manipulative. Each tray comes with 4 double-sided mats which slide into the tray. These can be used for counting, addition and subtraction, multiplication and division, fractions, place value, geometry and measurement, ration and area, and patterns. Each tray keeps the rods organised, and has a factor track on the top and side for area models. The trays stack on top of each other for convenient storage in a classroom. Packaging and guide is multilingual. Includes 6 trays, tray measures 13cm square.

COOPER™

the STEM Robot™

Cooper™ the STEM Robot

Meet Cooper the STEM Robot that is ready to bring collaborative coding to classrooms! This bot introduces children to the fundamentals of programming through 100% screen-free, push-button coding, and fun interactive features. Young coders push the four directional arrows on top to input a sequence of commands. After pressing Go, children can then see their code run right in front of them and watch as Cooper moves, following along with the series of commands. Cooper is packed with clever features that make learning fun and engaging. This smart bot can communicate, so children can code multiple Cooper robots to solve collaborative STEM challenges and build their teamwork skills along the way! Advanced sensor technology helps it follow black lines, detect objects and even see in the dark. Rugged wheels allow for precise movements and turns on a flat surface, and it can hold and carry items with its articulated arms and grippy claws. Switch to Communication Mode and discover Cooper's playful side as the bots tell jokes, dance together and more! The classroom set includes 4 Cooper robots, 1 four way charger cable, 1 play ball, 40 coding cards, and a detailed Teacher's Guide with 20 STEM challenge lesson plans. Schools can extend the learning with additional single robots which are sold separately. The single set has 1 robot, 1 play ball, 1 charger cable, and 40 coding cards. Cooper measures 10 x 10cm.

150 Coding steps in six directions

Night vision with light-up eyes!

Advanced object detection

Transform into a police car, ghost and more!

Botley® 2.0 the Coding Robot Activity Set 🏆

Botley® 2.0 is here to put the fun in coding fundamentals. The next generation of 100% screen-free coding robot, kids can do even more with Botley 2.0! Programme Botley 2.0 to do up to 150 steps in one sequence including 45 degree left and right turns. Turn off the lights and see Botley 2.0's eyes light up. You can even change the colour or programme by colour and watch Botley 2.0 put on a cool light show and dance to the beat.

Botley 2.0 has a playful personality and loves games. Play a game of Botley Says where players listen and repeat the musical sequences. Or crack the secret code and turn Botley 2.0 into a police car or roaring dinosaur. Because Botley 2.0 loves trying new things, use the two different face plate colours and glow-in-the-dark stickers to personalise each Botley 2.0.

It's easy for first-time coders to get started with Botley 2.0 and as kids grow in confidence, they can use the the Activity Set to build up an obstacle course, programme Botley 2.0 to do up to 150 steps and watch it navigate through. The 78-piece Activity Set includes programmable robot, easy-to-use remote programmer, two detachable robot face plates and arms, reversible mats, 40 coding cards, interactive blocks and obstacles and activity guide. Botley measures 13cm W x 7cm H x 8.5cm D. Requires 5 AAA batteries not included. **78 Piece Set**

Botley® the Coding Robot Activity Set 🏆

Botley® the Coding Robot is your 100% screen-free coding buddy. Botley is a programmable robot designed to teach children coding basics and sequential thinking through hands-on play. Through programming Botley to complete a sequence of up to 80 steps including forwards, backwards and right and left turns, children learn key STEM skills. For first-time coders, Botley is ready to use right out of the box. As children grow in confidence and capability, they can use features such as object detection and black line following to create more complicated sequences and challenges. The 77-piece Activity Set is an ideal way to take children from beginner coding play to more complex challenges. The set comprises Botley, mats, interactive obstacles, blocks and more. Focuses on step-by-step coding, programming and critical thinking. Incorporates object detection and loops into coding challenges. Requires 5 AAA batteries not included.

Artie Max™

Take creative coding to the max with Artie Max™ The Coding Robot! Artie Max brings coding and STEM learning to life by converting the code programmed in the simple user interface (UI) into real line drawings in up to 3 different colours. Kids learn to code in 5 coding languages - Blockly, Snap!, JavaScript, Python, and C++ - through fun, creative activities. Artie Max's colour-changing LED light-up eyes and mouth add extra cool fun to coding for kids.

⚠ SMALL PARTS. Not for < 3 yrs

Artie 3000™

Artie 3000™ is the coding and drawing robot that puts children in control! Artie has a built-in Wi-Fi server so can be used anywhere without requiring an internet connection. The easy-to-use drag and drop programming can be used on a Mac, PC or tablet and offers four modes of play; pre-programmed shapes, games, art for colouring and freeform coding. Artie has 360-degree movement - tell him to turn right or left, forwards or backwards or spin in any direction! Four swappable, washable coloured pens are included and the innovative drawing simulator software allows coders to test their ideas before setting Artie down on paper. Children will learn basic programming, geometry and maths whilst creating cool designs and having great fun! Measures 15.5cm H x 14cm W. Requires 4 AA batteries not included.

BLOCK-BASED CODING with SCRATCH and SCRATCHJR

Get started with block-based coding using this suite of hands-on products that bring Scratch and ScratchJr coding languages to life. Featuring magnetic demonstration materials and interactive student sets, these resources make a perfect addition to any coding classroom.

Demonstration Sets

Enhance your classroom coding experience with magnetic demonstration sets designed to extend the Scratch and ScratchJr coding languages. Each set includes a teacher-written getting started guide, color-coded dry-erase coding blocks—42 for Scratch and 30 for ScratchJr—and peel-and-stick magnets, perfect for building and demonstrating scripts on any magnetic surface.

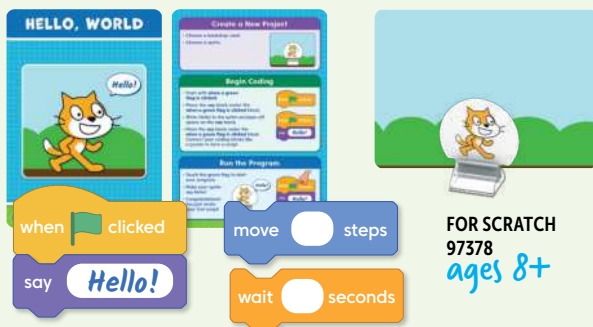

⚠ SMALL PARTS [1]. Not for children < 3 yrs.

Student Activity Sets

Bring the learning into students' hands with our Scratch and ScratchJr companion kits! Each set features color-coded blocks that enable students to act out coding sequences before testing them online. Perfect for classrooms with or without one-to-one device access, these kits support interactive learning while aligning with computer science standards. Foster creativity and critical thinking in any educational setting!

⚠ SMALL PARTS. Not for <3 yrs

ScratchJr is part of the Scratch Foundation and was originally developed by Prof. Mitchel Resnick and his Lifelong Kindergarten group at the MIT Media Lab and Prof. Marina U. Bers and her DevTech Research Group. The ScratchJr app is available for free on the App Store, Google Play, and Amazon Marketplace. You can learn more about ScratchJr at www.scratchjr.org.

Scratch is owned and provided by The Scratch Foundation and was originally developed by Prof. Mitchel Resnick and his Lifelong Kindergarten group at the MIT Media Lab. Scratch is available for free at www.scratch.mit.edu and can also be downloaded on the App Store, Google Play, and Microsoft Store. You can learn more about Scratch and The Scratch Foundation at www.scratch.org.

Morphology Wall Card Set

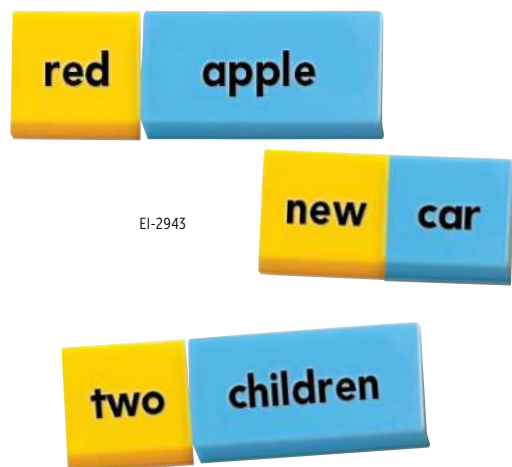

This set of ready-made word part resources allows teachers to quickly and easily set up working word walls in their classrooms. The set has prefixes, suffixes, root and base cards for English words which teachers can use to help students with reading, writing and spelling activities. The cards are colour-coded to make it easy for teachers and students to identify - prefixes have a red border, base and root words have blue, while suffixes have a yellow border. The set also includes 20 write-on/wipe-off cards for customisation, and the Getting Started Guide (English only) has reproducible printables. There are 7 header cards, 20 prefix cards, 40 base and root cards, 20 suffix cards, 20 blank write-on/wipe-off cards and a Getting Started Guide. There are also 108 peel-and-stick magnets which allows teachers to use these on different surfaces in their classrooms including magnetic whiteboards. Header cards measure approximately 15cm L x 7cm W. **215 Pieces**

Sensory Trio Fidget Tubes

Explore the sights, sounds, and textures of these flippable sensory fidget tubes. Children build essential fine motor and sensory skills every time they fidget with the Sensory Trio Fidget Tubes from Learning Resources. Each sensory tube in this fidget toy pack engages a different sense through fun hands-on play - listen to falling beads as they tumble down the tube, watch the swirl of glitter to spot the hidden smiley faces, or feel the weight of falling sand as it cascades from one end to the other. The sensory fun doesn't stop there - features including a twist-and-click and fun grabbable textures ensure that kids stay engaged while they build sensory and fine motor skills. Sized just right for little hands, the Sensory Trio Fidget Tubes are ready for fidget fun at home or on the go - keep these kids' sensory toys in the playground for breaks, or stash them in the car for on-the-road fidgeting. Features multilingual packaging. **3 Piece Set**

ages 5+

Time Tracker®

This colourful timer offers visual and auditory cues that help children with timed tasks. There are three modes - Clock, Timer, and Auto Timer – and these are easy to set up. The colourful lights and sound with adjustable volume will help children visualise time remaining, encouraging them to focus on completing tasks. It features adjustable volume, clear 180° viewing, an easy-to-read LCD display, volume control, and a pause function, and is perfect for front of class use. Requires 4 AAA batteries which are not included, and 2 LR44 batteries which are included.

LER 6900

Time Tracker® Mini

This super simple timer helps children know how much time is left for any game or activity up to 120 minutes. Simply twist the dials to select a total time and warning alarm time that are customised with glowing lights and sound effects. Features adjustable volume with mute option. Requires 3 AAA batteries, not included. Measures 12cm H.

LER 6909

ages 5+

Magnetic Time Tracker®

Easily programme the three colour sections along with one sound effect. Time up to 24 hours in one second increments. Magnetic backing allows for front of class display. Requires 3 LR44 button cell batteries, included. Also requires 4 AA batteries, not included. Measures 17.5cm H

LER 6968

ages 5+

Rainbow Visual Timer

This engaging visual timer offers 5 increments (1, 3, 5, 10 and 15 minutes) and can be used for timed activities in the classroom or at home. Bright rainbow stripes either light up or go dark to show elapsed time – you choose. It's helpful for neurodiverse children to provide them with a concrete representation of time passing which helps with transitions, and also helps reduce feelings of anxiety. This visually engaging timer can be used as soon as young children begin to understand the concepts of time and scheduling. It can also be used as a night light – activate the timer's nightlight mode and watch as the colourful rainbow counts down from 15 minutes to let kids know when it's time to sleep. The timer requires 3 AAA batteries which are not included.

Learning Resources Limited – Trade Terms 2026

These terms set out the terms on which Learning Resources Limited (company number: 03005652) ("we", "us", "our") will sell, and the customer, whose details will be set out in each Order ("you", "your") will purchase, the products we make available from time to time (the "Terms").

Your order for products (the "Order") constitutes an offer to purchase the products in accordance with these Terms. Your Order will only be deemed to be accepted when we issue you a written acceptance (including via email).

These Terms apply to each Order to the exclusion of any other terms that you may seek to impose or incorporate, or which are implied by law, trade custom, practice or course of dealing.

We reserve the right to cancel any Orders (in whole or in part) in our discretion at any time prior to the point of delivery. We shall notify you in writing (including via email) in the event we cancel your Order and will refund any pre-paid fees in respect of the cancelled products.

UK & IRELAND** TERMS OF SALE

- Trade prices are shown in our price list in place at the time the Order is made.
- Carriage is paid on orders of net £400 or over. Orders under £400 will incur a minimum of £25 carriage and handling charge.
- We request that customers order in Master Carton Quantities (MCQ) for best value and service. Our minimum requirement is Minimum Order Quantity (MOQ).
- For credit account customers (and subject to the availability of products), Orders will be ready to ship within 7 working days from confirmation of acceptance of an Order. Where payment is required on proforma, Orders will be ready to ship within 7 working days of receipt of cleared funds (and will be subject to the availability of products).
- Although we make every effort to maintain stock of all items in our warehouse, shortages may occasionally occur. If an item is out of stock, it will automatically be placed on back order, and we will provide you with our best expected available dates, unless you have instructed us to cancel the back orders which you will be entitled to do until the product becomes available and is sent out from our warehouse.
- Please note the maximum pallet height is 1.7m and maximum carton weight is 25kg. We cannot be held responsible for the service provided by our carrier which may be affected by unforeseen circumstances.
- Accounts must be current before subsequent shipments can be made.
- For Orders for Ireland, Channel Islands and the Isle of Man,

INTERNATIONAL TERMS OF SALE

- Trade prices are shown in our price list in place at the time the Order is made. Our net minimum order value is £450.
- We request that customers order in Master Carton Quantities (MCQ) for best value and service. Our minimum requirement is Minimum Order Quantity (MOQ).
- Container pricing or special price quotations are available upon request.
- For credit account customers and subject to the availability of products, Orders will be ready to ship within 7 working days from confirmation of acceptance of an order. Where payment is required on proforma, Orders will be ready to ship within 7 working days of receipt of cleared funds (subject to the availability of products).
- We make every effort to maintain our stock levels. However, in the event of an item being out of stock, we will send you our best estimated date of availability and automatically include the item to ship with your next Order.
- If back orders are not required, we reserve the right to cancel if not confirmed within 5 working days of notification.
- We cannot be held responsible for the service provided by your and/or our carrier which may be affected by unforeseen circumstances.
- Euro Pallets: Learning Resources reserves the right to pass on an additional charge of £5.00 per pallet to customers requiring their orders packed on Euro Pallets.
- Please note the maximum pallet height is 1.7m and maximum carton weight is 25kg.
- Accounts must be current before subsequent shipments will be made.

EUROPEAN CUSTOMERS ONLY

From 1st January 2026 prices are Delivered Duty Paid (DDP), meaning that the cost of freight, import duties and all associated shipping charges will be covered in our price.

NON-EUROPEAN CUSTOMERS

- Prices are EX-Works Southampton (UK).
- We will notify you when your Order is ready for collection. Please note Orders must be collected within 10 working days of notification. Failure to collect within this time will result in storage fees of £25 per pallet per week. Uncollected Orders will be cancelled, and products returned to inventory. A restocking fee may apply.
- Learning Resources can arrange the shipment on your behalf. Please note all shipping charges are billed separately and require immediate payment.
- These terms apply to orders from the UK to Europe, the Middle East, Africa and India. For sales to other parts of the world please contact Learning Resources Inc, 380 North Fairway Drive, Vernon Hills, Illinois 60061, USA. Tel: +1 847 573 8400, Fax: +1 847 573 8425

FOB AND OEM ORDERS

- Please see your Sales Manager for prices.
- Products will be subject to Minimum Order Quantities (MOQ).
- Production lead time will be 90 days from receipt of payment and artwork approval.
- FOB Incoterms apply to FOB and OEM orders.
- Orders for special or custom products may require a 50% prepayment are final sale and cannot be cancelled or returned, unless defective.
- All our OEM products are tested to EN71 parts 1 & 2, as per the Toy Safety Directive.
- EN71 part 3, REACH and Electronics testing are covered by a Declaration of Conformity (DOC) relating to the original developed product line.
- We are fully compliant to UK & European Toy Safety Standards.
- We do not issue test report, but a DOC Declaration of Conformity can be provided at on request.
- If any additional product testing is required, this needs to be confirmed at time of ordering and the cost will be borne by the customer.

PAYMENTS

- New accounts are supplied on a pro forma payment basis.
- Please contact our Sales Department if you would like to set up a credit account with us.
- All credit accounts are subject to credit approval and may be accepted, rejected or withdrawn at our discretion.
- For the UK and Ireland payment terms are 30 days from date of invoice for credit account customers. For European and non-European customers, payment terms are 45 days from date of invoice for credit account customers.
- Overdue accounts are subject to a 1.5% per month finance charge.
- Without prejudice to our other remedies, we reserve the right to terminate any contract between us formed on the basis of these Terms immediately on written notice if you fail to pay any amount due under the contract on the due date for payment. On termination you shall pay us all outstanding amounts.
- Invoices can only be paid in the stated currency into the corresponding bank account. Please note you will find the relevant bank details on your invoice.
- Any errors of payment resulting in loss due to currency differences will not be borne by us.

PRICES

- Prices are exclusive of VAT, which you shall pay (if applicable) upon receipt of a valid VAT invoice.
- Although it is our intention to maintain prices for a full calendar year, we cannot guarantee that prices or terms will not change over this time period. We reserve the right, in our sole discretion, to change prices at any time. Prices are set out in our price list in place at the time an Order is made (or for the duration set out in any written quote).
- Samples are available at a special price. Please contact your Sales Manager for details.

THE GOODS

- The goods are as described in our catalogue made available from time to time.
- We warrant that on delivery the goods shall materially conform with their description and be free from material defects in design, material and workmanship. Your exclusive remedy for breach of this warranty shall be set out in the section headed "Service and Returns" below.
- Product descriptions, colours and details are subject to change without notice. While we make every effort to ensure the accuracy of all information, we reserve the right to make corrections if an error does occur.

RETENTION OF TITLE

- Risk in the goods shall pass from us to you upon delivery of such goods to you or your agent (which shall be deemed to be point of collection for any goods delivered Ex Works).
- Title to the goods shall not pass to you until the earlier of: (a) us receiving payment in full (in cleared funds for all goods delivered to you under this and all other contracts between us and you for which payment of the full price of goods there under has not been paid; and (b) you reselling the goods, in which case title will pass in accordance with the next paragraph.
- Subject to the next paragraph, you may resell or use the goods in the ordinary course of your business before we receive payment. However, if you resell the goods before that time: (a) you do so as principal and not as our agent; and (b) title to the goods shall pass from us to you immediately before the time at which resale by you occurs.
- At any time before title to the goods passes to you, we may: (a) by notice in writing, terminate your right to resell or use the goods; and (b) require you to deliver up all goods in your possession that have not been resold and if you fail to do so promptly, enter any premises where the goods are stored in order to recover them.
- Payment of the full price of the goods shall include the amount of any interest or other sum payable under the terms of this and all other contracts between the seller and the buyer under which goods are delivered.

SERVICE AND RETURNS

- Shortages and/or visible damage to merchandise must be reported to our Customer Service department within 15 days of receipt of the shipment. Non-visible damage must be reported to our Customer Service department within 5 days of becoming aware (or when you should ought reasonably to have become aware) of the damage.
- Damages caused by Customers' own shippers (EXW collection orders) are not the liability of Learning Resources.
- Claims in relation to damaged merchandise must be supported by photographic evidence.
- In the event of a shortage, we will in our discretion send the missing item(s) or credit your account with, or refund you for, the price of the missing products, subject to prior approval from a Customer Service representative.
- For merchandise damage that is the result of product defects, we will in our discretion arrange collection of the item(s) and issue a credit to your account (or issue you with a refund) or send a replacement.
- For goods showing visible damage on the shipping carton, you should instruct the carrier to record the damage on the freight bill before accepting delivery. Goods damaged in transit must be reported to the carrier immediately. Save all original shipping cartons, packing material and damaged items until they have been inspected or your claim has been settled. Goods must be signed for as damaged.
- All returns must be accompanied by a packing slip and marked with an authorization number available from your Customer Service representative. There will be no cash refund for returned items, unless damaged or defective as per the preceding provisions.
- All items will be inspected upon return and must be in saleable condition to be eligible for credit.
- Returns apply only to items listed in our current catalogues.
- There will be a 20% restocking fee on all returns unless they are directly the result of errors made by us.

THIRD PARTY INTERNET RETAILER SALES POLICY

- We will decline to open new accounts for retailers which do not have their own store, catalogue or website to support the sale of our products.
- For the purposes of this policy, a Third-Party Website is any website which accepts third party sellers (otherwise known as "Internet marketplaces") and is not independently owned, operated and controlled by the retailer seeking to establish the new account. By way of example, Amazon.com and eBay.com are considered Third Party Websites.
- Retailers which derive sales from Third Party Websites are not exempted from any requirement to operate their own store, catalogue or website, investing on an ongoing basis in the promotion and support of our brands, products and customer care. The determination will be made solely at our discretion.
- We will no longer offer direct shipments for our existing accounts to fulfillment centers owned by Third Party Websites. This policy does not apply to custom products produced by us for any retailer.
- Freight allowances, extended credit and receivables dating programmes shall be

offered by the company to retailers on a case-by-case basis at the company's absolute discretion taking into account investments made by the retailer in supporting our brand, our products and our customers.

- We reserve the right to refuse any account application and to impose reasonable standards on all customers reselling our products.

MISCELLANEOUS

- Force Majeure. We shall not be liable for delay in performing, or failure to perform, any of our obligations under or in connection with these Terms (and any Order hereunder) if such delay or failure result from events, circumstances or causes beyond our reasonable control.
- Exclusion of Warranty. Unless expressly stated otherwise, we specifically exclude all express or implied, oral or written representations, warranties, conditions and guarantees of all kind to the maximum extent permitted by law.
- Limitations of Liability. Nothing in these Terms limits any liability which cannot legally be limited, including liability for:
 - death or personal injury caused by negligence; and
 - fraud or fraudulent misrepresentation; and
 - breach of the terms implied by section 2 of the Supply of Goods and Services Act 1982 (title and quiet possession).
- Subject to the limitations of liability in these Terms, our total liability to you (including but not limited to liability in contract, tort (including negligence), misrepresentation, restitution or otherwise) shall not exceed the total price(s) payable by you in respect of the Order giving rise to the liability.
- We will not be liable to you for any loss of profits, business, agreements or contracts, anticipated savings, loss of or damage to goodwill or any indirect or consequential loss.
- The terms implied by sections 13 to 15 of the Sale of Goods Act 1979 and sections 3, 4 and 5 of the Supply of Goods and Services Act 1982 are, to the fullest extent permitted by law, excluded from these Terms.
- **Entire Agreement.** These Terms constitute the entire agreement between you and us and supersedes and extinguishes other agreements, assurances and understanding between you and us.
- **Severance.** If any provision or part-provision of these Terms is or becomes invalid, illegal or unenforceable, it shall be deemed deleted, but that shall not affect the validity and enforceability of the rest of the Terms.
- **Third Party Rights.** Unless expressly stated otherwise, these Terms do not give rise to any rights under the Contracts (Rights of Third Parties Act) 1999 to enforce these terms.
- **Governing Law.** These Terms and any disputes or claims arising out of or in connection with these Terms shall be governed by and construed in accordance with the laws of England and Wales.
- **Jurisdiction.** You agree that the courts of England and Wales shall have exclusive jurisdiction to settle and dispute or claim arising out of or in connection with these Terms.
